7 Day NSS Camp

NSS Unit of the college successfully organized a seven-day NSS camp at the village Rawal Gadaria. Inauguration ceremony of camp was graced by Dr. Paramjit Singh Kalsi, State and National Awardee. Various activities such as cleanliness drives, plantation, awareness rallies, workshops, lecture series, and community service were conducted. A workshop on Plant propagation & Environmental Conservation was organised. The lecture series on cyber-crime awareness & safe internet practices, seasonal nursery innovation & express debate were also organised. The concluding ceremony was graced by eminent writer and journalist S. Balwinder Balm as the Chief Guest. In his inspiring address, the Chief Guest motivated students to work hard with dedication, uphold moral values, and choose the right path in life.

7 Day Training Programme

The College successfully organized a 7-Day Training Programme on “Employability & Domain Skills” in association with Mahindra Pride Classroom (MPC) and Naandi Foundation. The programme was conducted under the aegis of IQAC, IIC, Career Counselling and Placement Cell. The training programme aimed at enhancing employability, professional competence, and industry readiness among final-year students. A wide range of sessions focusing on communication skills, resume writing, interview preparation, confidence building, and domain-specific skills were conducted through interactive lectures, activities, and practical exercises. Mr Linconjit Pal Singh and Ms Mannat, Senior Trainers from Naandi Foundation, efficiently coordinated the programme and ensured its smooth execution in two different batches.

Short/Skill Development Courses

Under the realm of IQAC and IIC, different Departments conducted Short-Term Courses. Maths department organized a STC on 'Vedic Maths'. The main purpose of this course was to taught students quick hacks of Mathematics. Science Department organized a short-term course on Biotechnology. Students, explored the exciting world of biotechnology through a mix of interactive lectures, practical demonstrations, and industrial visits. English Department organized a STC on “Personality Development and Communication Skills”. The programme covered public speaking and professional etiquettes. Computer Department organized a STC on “Internship-Based Learning Through Digital Entrepreneurship Skills”. Sessions provided practical exposure to e-commerce platforms and online payment systems. Commerce Department organized a STC titled “Innova-Com: Design Thinking & Smart Start-up Development”. The course focused on field visit, developing practical and analytical skills through sessions on design thinking and problem identification.
