### Neglected trees

Gurdaspur: In Gurdaspur, every year thousands of saplings are planted to commemorate World Environment Day. The problem, however, begins after the plantation is over and roots start growing. That is the time when plants require care, but most saplings die because of lack of care. The person planting a sapling must dedicate himself to its upkeep. If there are trees, the environment will get better. Otherwise, as American novelist Barbara Kingsolver said, "From a fallen tree everyone makes firewood."

**Subject: Activities to be undertaken by HEIs in the run-up to World Environment Day, 5<sup>th</sup> June 2023.**

Respected Madam Sir,

The Hon'ble Prime Minister launched LIFE (Lifestyle for Environment) a global movement at COP26 in Glasgow for "mindful and deliberate utilization, instead of mindless and destructive consumption", to safeguard our environment from the impact of climate change.

As you are aware, every year 5<sup>th</sup> June is celebrated as World Environment Day. In this regard, in the run-up to World Environment Day, the Ministry of Environment Forest & Climate Change is organizing activities for mass mobilization on Mission Life for creating awareness about the mission and inculcating sustainable consumption behaviour.

An illustrative list of activities that can be considered by the Higher Education Institutions starting from May 2023 till 05<sup>th</sup> June, 2023 is enclosed as Annexure 1. The creatives for mass mobilization are available on the Mission LIFE Portal (<http://missionlife-movlec.mca.gov.in>) in downloadable format.

HEIs are requested to upload the detailed plan of proposed activities and geotagged photos/videos of activities undertaken on the Mission LIFE portal (<http://missionlife-movlec.mca.gov.in>) of the Ministry of Environment Forest & Climate Change specially created to capture the details of the awareness generation and LIFE Actions of the events conducted in the run-up to World Environment Day.

Looking forward to your support and active participation by students, faculty members and other stakeholders in leading this mass movement to adopt an environmentally conscious lifestyle.

With kind regards,

Yours sincerely,  
(Sudeep Singh Jain)

Memo no: IECAT/HRP/HR/10 Date: 25.10.2023

Subject: Higher Education for Sustainable Development: Action Research Championship Award: Reg.

Dear Professor/ Sir,

I hope this letter finds you well. I am writing to introduce and provide details about an exciting program that is designed to elevate our institution's commitment to Sustainable Development Goals (SDGs) and foster a culture of research and collaboration within our faculty and student body.

**Program Title: "Higher Education for Sustainable Development: Action Research Championship Award"**

**Program Objectives:**

- To promote action research among faculty members addressing the SDGs 2030.
- To foster collaboration between faculty members and students in research initiatives.
- To disseminate knowledge and best practices through a national conference.

**Program Structure:**

**Registration and Orientation (25.10.2023 to 04.11.2023):**

- Faculty members from participating institutions register for the program with a fee of Rs 10000 per faculty.
- A minimum of two faculty members are expected to engage in Action Research projects.
- Greater faculty involvement leads to more productive outcomes and increased chances of winning the award.
- An orientation session acquaints participants with the program's objectives, rules, and expectations.
- Participants choose specific themes or topics related to the SDGs 2030.
- Each participant submits an action research proposal outlining the research question, methodology, expected outcomes, and, if applicable, student involvement.
- A review committee assesses proposals and provides feedback for refinement.

**Mentoring and Research Phase (06.11.2023 to 06.01.2024):**

- Participants conduct action research collaboratively with students within their academic institutions.
- Scheduled mentorship meetings and progress reports provide ongoing support.
- Participants receive constructive feedback and assistance in addressing any challenges they encounter.

**Workshops at the College level:**

- Organize workshops and seminars on action research methodology, data analysis, and presentation skills.
- Include sessions addressing the relevance of the SDGs within the Indian context.

**Final Research and Documentation (before National Conference):**

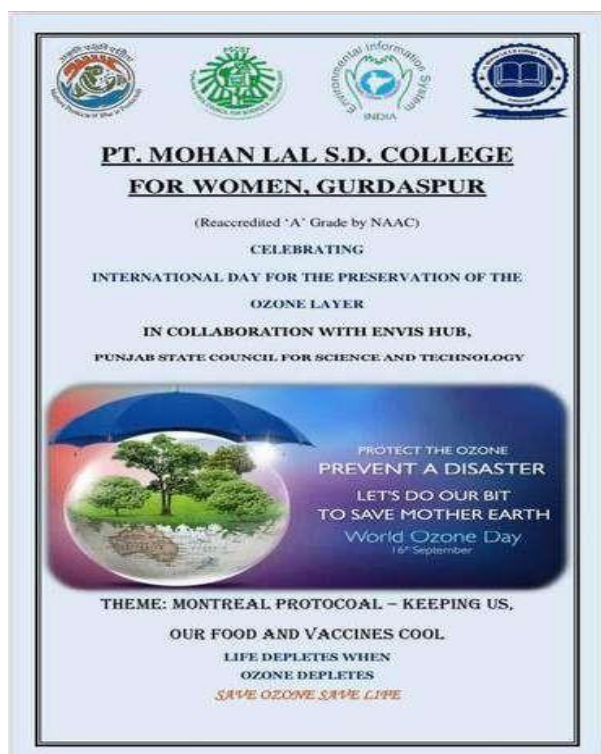

- Participants finalize their action research projects and prepare comprehensive reports.
